

At the Kirks

The darkness of her house was in itself a kind of architecture. What could have made a house so dark? Perhaps it was the bushes that grew up, dense, shaped, around the windows. And it was the blackout shades, pulled down in early afternoon. Still, there must have been some place, some part of a room, a corner of a hallway, where light struck, where a yellowish patch, transected by striped shadows, came to rest on a wooden floor. Some moment of a day when the windows were let open that the house must have been not dark. But I do not remember such a place or time. In this never-before-collected essay, *At the Kirks*, bestselling author Mary Gordon recalls her girlhood days spent in the charge of a neighboring family, pulling us into the shadowy impressions and bright convictions of her childhood one of which is that she's only pretending to be a child. *At the Kirks* was originally published in *Grand Street*, Winter 1990. Cover design by Adil Dara.
