

## Fantasy : Whistler (Great Fantasy & Dragons book)

In the land where mystical dragons protect humans, the vicious Katalan tribe wars against the Mayous. When a special newborn boy is given to a young girl by the Guardian, a protective silver dragon, both tribes do not understand how powerful the child is. Having the ability to call dragons to his aide whenever in trouble, the Whistler grows up in a war-torn area where it is survival of the fittest. Being of adoptive dragonic royalty, he is asked to help humans fight the Kalatans and the empire to live another day. Fast-paced, the story blends fantasy and fiction of dragons, spirits, and strange beings with mankind as they work together to keep the world in existence. Great book for fantasy lovers
