

Hannahs Hope

Raised in a political family, 15-year-old Hannah Roberts lives a lonely life with her wealthy, unaffectionate grandmother while her parents work abroad. As Christmas nears, Hannah learns a shocking truth: the man she believed was her father is not her parent after all. In an effort to find answers, she begins a desperate search for her real father, Air Force pilot Mike Conner, who she discovers to be the man of her distant childhood memories. Local politicians and the city's newspaper catch wind of her quest, and the entire state joins in Hannah's hope that she'll find her father before Christmas.
