

Zombie Apocalypse! Endgame

Human Reanimation Virus (HRV) has spread around the globe and most of the major cities have fallen or been destroyed. As a new race of intelligent zombies rise to power, the remaining pockets of human resistance make a last, desperate stand in the ruins of a world on the brink of unimaginable change. With the final pieces of the epic puzzle falling into place, a centuries-old Endgame is revealed through a series of interconnected documents: emails, articles, reports, diaries, and eyewitness accounts as past and future hang in the balance. In this third and final volume of the original best-selling *Zombie Apocalypse!* trilogy, Thomas Morebys plan for world domination is finally revealed in all its mad glory, as the very fabric of time and space is ripped apart and history itself is about to be changed forever. . . . Praise for previous *Zombie Apocalypse!* novels: There is a sense that events are building to a climax and each episode moves things forward. The Eloquent Page A phenomenal undertaking. . . . *Zombie Apocalypse!* is a great read for any zombie fan. SF Site
